This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

INTRODUCTION

This Finding List is a condensed Catalogue of the books of the Library, arranged alphabetically by authors, under a few prominent subjects. The object of it is to furnish the reader with the simplest and easiest method of finding the book he wants, and of showing him what the Library contains on any given subject. A full catalogue is usually arranged by author, title and subject in one continuous alphabet, giving the full names of authors, the full titles of books, with their imprints, and numerous subdivisions of subjects; while a Finding List may give only the surnames of authors and condensed titles, and it usually contains, comparatively, but few general subjects, in order to bring the whole into as small a compass as possible.

Any printed Catalogue or Finding List will contain only the books that were in the Library at the time it was printed. All new accessions, made subsequent to the issue of this edition and not contained in such supplements as may be hereafter printed, can be found in the card-drawers in the Registration Room. Supplements will be issued from time to time as new purchases of books become important from their number or value.

To render the books arranged under the general subjects more accessible to the reader, the index contains many sub-divisions of subjects which refer to, and will be found under, one general head in the class lists.

PERSONS WHO MAY USE THE LIBRARY.

Any person of good conduct and over *fourteen* years of age is entitled to use the periodicals and reference books in the Reading Room; and any person over *fourteen* years of age can take books from the Library for home use, on furnishing a certificate of guaranty against loss, signed by some responsible citizen. He will then register his name and residence and receive a Library card. Blank certificates of guaranty can be obtained at the registry desk.

Persons not having cards, by depositing *two dollars*, or the value of the book asked for, if it be of greater value than two dollars, can also obtain books for home use.

DIRECTIONS FOR USING THE FINDING LIST.

The Finding List, except in Biography, is arranged alphabetically by authors under various subjects; but, in Biography, the names of the persons whose biographies are given, and not the authors of the biographies, are arranged in alphabetical order. Thus, Irving's Life of Washington will be found under Washington and not under Irving.

To use the Finding List, turn, in the index at the beginning of the volume, to the subject of the book desired, whether it be Biography, Essays, Poetry, Drama, Prose-Fiction, Mechanics, Agriculture, the Useful Arts, or any other branch of knowledge, and the number opposite will indicate the pages in the Finding List, on which all the books in the Library belonging to this class will be found. On the same line with the title of the book will be found the shelf-letter and number, which are to be placed on the slip for ordering books. Several index subjects will often be found to refer to a single more general subject in the Finding List. If the particular subject sought is not in the index, look for it under a more general head which is likely to include it. Thus, seek for books on Roses, Ferns or Mosses under Plants and Botany.

DIRECTIONS FOR OBTAINING BOOKS.

Card-holders *must* always bring their cards with them when they wish to obtain or exchange a book. No other book will be given out till that already out on the card has been returned and all fines have been paid. A book is not to be asked

for by its title, but by its shelf letter and number, which can be found after the title in the Finding List, as A 44, B 375, &c. This letter and number must be written on the slip furnished at the counter for the purpose; and this slip, signed with the name and residenee of the card-holder, must be handed with the card to the attendant, who will procure the book, return the card with the date stamped upon it, and retain the slip signed by the borrower as a record of the loan. As any single book called for is liable to be out, several books should be asked for upon the slip, and the attendant will supply the first one on the list that is, at the time, in the Library, thus saving much time to the borrower.

In order that the selection of books may be made carefully at home, instead of hurriedly at the Library, it is desirable that each borrower should own a copy of the Finding List.

PERIODICALS.

The Reading Room contains about 190 periodicals and other serials. The applicant for their use must fill up the blank provided for the purpose with the box number, or with the name of the periodical wanted, and sign it with his name and residence. Periodicals cannot be taken from the room, but must be returned to the desk when the reader is done with them.

REFERENCE BOOKS.

The Reference Books in the Reading Room are for the use of all readers over *fourteen* years of age. They cannot be taken from the room, and must be returned to the desk when the reader has finished using them.

A large number of Reference Books and bound Periodicals are in the Reference Book Room, adjoining the Reading Room, and can be ordered at the desk of the Reading Room in the same way as periodicals.

BOOKS THAT DO NOT CIRCULATE.

1. Reference Books, Documents, Periodicals and other serials.
2. Books marked with two stars. (**.)

Books marked with one star (*) can only be taken out on the written approval of the Librarian.

The Central Library now contains 55,334 volumes; the Branch Libraries contain 31,968 volumes, making a total of 87,302 volumes contained in the five Libraries.

REGULATIONS.

1. The Reading Room is open from 9 o'clock A. M. till 10 o'clock P. M., except in July and August, when it closes at 9 o'clock P. M.

2. The room for the delivery of books is open from 9 o'clock A. M. till 8.30 P. M., except in July and August, when it closes at 8 o'clock P. M.

3. Each card-holder is entitled to draw for home use *one* volume, if of octavo or larger size, or *two* volumes of smaller size if they belong to the same work.

4. Books may be kept out *two weeks*, and cannot be renewed.

5. A fine of *2 cents* must be paid for each day that a book is kept out beyond two weeks, and no book will be delivered on the card of a delinquent till all fines are paid.

6. Delinquents may be notified through the mail on the *sixth day* after they are finable. On the *twelfth finable day* notice may be served on the card-holder's *security;* and on the *twentieth* finable day the book will be sent for, and a charge of *20 cents* will be made for the service, in addition to the fine of *2 cents* a day, and *2 cents* for each mailed notice.

7. Marking, writing in, or otherwise mutilating books is strictly prohibited, and is by law subject to fine or imprisonment.

BALTIMORE, August, 1890.
